

General websites:

Web site	Description
Seneca Learning www.senecalearning.com	<p><i>Please look at this site carefully if you don't already use it. It is highly recommended and should be a key tool for us in solving the issue of how we assess students' learning.</i> It is an excellent resource for self-quizzing that gives us, as teachers, instant feedback on our classes strengths and weaknesses.</p> <p>Signing up as a teacher takes 2 minutes and then students can sign up to be in your Seneca 'class' via a simple link that can be posted on google classroom.</p>
Khan Academy www.khanacademy.org	<p>Has some very well-taught lessons on it – could be a good source of EDI if combined with follow up work. Watch out – it's meant for U.S. system so videos will need checking for relevance before students are asked to watch.</p>
BBC learning www.bbc.co.uk/learning/coursesearch	<p>Combines all their educational resources including bytesize and can easily be searched for relevant material – more for revision than new content though.</p>
Crash Course https://thecrashcourse.com	<p>Really well produced EDI on topics right up to A-Level in almost every subject. Well worth a look.</p>
www.futurelearn.com	<p>Good for EDI, it's free so ignore requests to upgrade as you only need that if you want a certificate</p>
Ted Ed https://Ed.ted.com	<p>Good for EDI, all sorts of engaging educational videos on here that may match the content you want students to learn whilst they are away.</p>

<p>Screencast</p> <p>https://screencast-o-matic.com/</p>	<p>This very clever software will record your voice and whatever you are doing on the screen, so if you prefer activstudio to powerpoint you can make your own lessons as videos using this free programme.</p>
<p>Twinkl</p> <p>https://www.twinkl.co.uk/sign-in</p>	<p>As mentioned by Leo in briefing – thousands of worksheets that could be used to consolidate EDI.</p>
<p>Revision world</p> <p>https://revisionworld.com/</p>	<p>Mostly past papers for GCSE and A-level, useful for years 11, 12 and 13.</p>
<p>Virtual Museums</p> <p>https://www.travelandleisure.com/attractions/museums-galleries/museums-with-virtual-tours?utm_source=facebook.com&utm_medium=social&utm_campaign=social-share-article&utm_content=20200314</p>	<p>12 of the world's top museums offering virtual tours - an excellent stimulus for a research project</p>
<p>Google Arts & Culture</p> <p>https://artsandculture.google.com/</p>	<p>This excellent site also provides resources for research projects</p>

Subject specific sites – subject teams will need to QA these sites and decide which, if any, provide useful EDI or assessment opportunities
